Your Idea:

When the lives of Americans are being destroyed, do you feel golfing with the man who is destroying the country shows good judgement? It sends a very unsettling message. Governor, Speaker Boehner is conspiring behind the backs of citizens and the rest of the House of Representatives. Barack Hussein Obama is a sociopath. He would not invite you or anyone else, other than to use you. It was very poor judgement for you to go. Obama is not respected, and now you will not be. John Boehner believes his job is to have a title. He is not capable of performing that job. That job requires very difficult decisions, not golf outings. Shame on you. The American people don't want to see golf. We want this marxist stopped. I have to take a shower just looking at the pictures. We're beginning to feel as though we are being raped everyday. Your Idea: This weekend when your golfing with the president and since hes already talked to General Petraeus about his options in Afghanistan you should request that the 37th IBCT of the Ohio Army National Guard not deploy to war in Afghanistan this year. You have 3500 national guard reservists from your state getting ready as I type this to deploy overseas.

Your Idea: Give me a break, playing golf with the man who is trying to destroy this country. I've always viewed you tough, but seems like you're giving in to normal politics which stinks. He needs Ohio, but Ohio doesn't need him. Don't give him what he wants.

Golf with the President - Great Move Kasich! Maybe some Photo-Ops, some Friendly Chit-Chat with the media or even better, something good for his '12 Campaign. The President is determined to destroy our American Way of Life & you're trying to legitimize him socially! You want to save this Country - debate his policies & positions on camera, on the radio, with him or without him, but you don't socialize with him - Period! Keep trying though, you may get him another four years to finish the job!

Stupid!!!! Playing golf with Pres. Obama. Do you realize that you have just allowed Obama to discount playing golf so many times during his Presidency. Do you not understand how the great majority of working Americans are too busy trying to make a living to play golf. In my area, we can drive by on our way to work and look at the deadbeats and bankrupts playing golf. You have totally neutralized the the charge that he is not on the job but playing golf and basketball while Rome burns. So what if you make a deal while on the golf course? Is that not what Americans regard politicians as doing. What value is it? Who would bellve it? It put you in his league. What is your high ground? You are now in the gutter with his type. Please cancel if possible!! I have long admired you on Fox. Unbelievable!!

With all due respect Governor by golfing with your new best buddy Obama you are showing conservatives everywhere that you are as clueless, weak and arrogant as McCain and Bush and all the other wimpy Republicans that have sold conservatives out over the last couple of decades. He will use you just by you being there and kissing his butt and laughing at his jokes. Are you so completely clueless that you don't understand how he is going to use you and the photo opps. Have the manhood to do battle with this disaster that we we have as President. You act like a young teenage girl that has been asked to prom. You have disappointed all of us greatly and we will not forgive you. Your selfish desire to grab the spotlight is disgusting. Paul Boger - Cokato, Mn

GOLF SUMMIT MEMBERS:

- Mr. President
- Mr. Vice President
- Mr. Speaker
- Governor

Office of the Governor
RECEIVED
 JUN 20 2011
 Governor John R. Kasich

Gentlemen:

Your Golf Summit was JUVENILE, at best. Its time to stop playing games, stop political sideshows, stop campaigning and get to work.

Leaders of both parties need to go to Camp David with President Carter, roll up their sleeves and get to work on doing the Peoples' Business. It worked for Begin and Sadat!

Two wars, two tax cuts and 2010 extension, Part D, TARP Bailout, Stimulus, Globalist Trade Agreements and Massive Corporate Welfare all passed by congress and not paid for ! (d---u---h!--!) equals massive debt, deficit, unemployment and a NO DEMAND economy.

Government created this mess! Yet, you all talk as if it just fell into your lap from somewhere out of the blue ??? Your answer - shred the safety net ??? You have to do better than that. The safety net is just a small amount compared to the irresponsible fiscal damage you have created.
